

29 March 2023

Dear Parent(s) / Carer(s) of **Year 10 Students at The Roseland Academy**

Year 10 Family Learning/Curriculum Information Evening
6.00 – 8.00pm on Tuesday 18 April 2023

I am pleased to tell you that our Year 10 students have made excellent progress this academic year and we would like to thank you for all that goes on behind the scenes throughout this important time in your child's education, including the support you have shown with sourcing work experience placements.

With assessment and grading changes from Key Stage 3 to Key Stage 4 you may be wondering what the numbers on your child's data sheet actually mean. We would like to invite you to a Year 10 Family Learning event on Tuesday 18 April where we will talk you through the GCSE grading system (introduced in 2017) and subjects will give you an overview of their courses.

Your child is currently working towards their GCSE/BTec subjects and we therefore feel it is crucial for you to attend this evening to help support your child with their courses to support not just with this academic year, but to set them up for success ready for their final year in school.

Staff will lead you through what your child is learning in key subject areas and provide you with a clear, specific understanding of the courses and offer practical guidance on how to support your son/daughter's learning. The evening will take the form of a series of short sessions explaining course content, the specifics of what is covered, how to understand data reports and introducing successful revision methods.

This is a really important evening and one which will provide you with more details and practical help that will enable your son/daughter to be successful. We hope that you can join us.

Yours sincerely

Mr Richard Clarke
Headteacher
